

A NOVELLA BASED ON A TRUE STORY

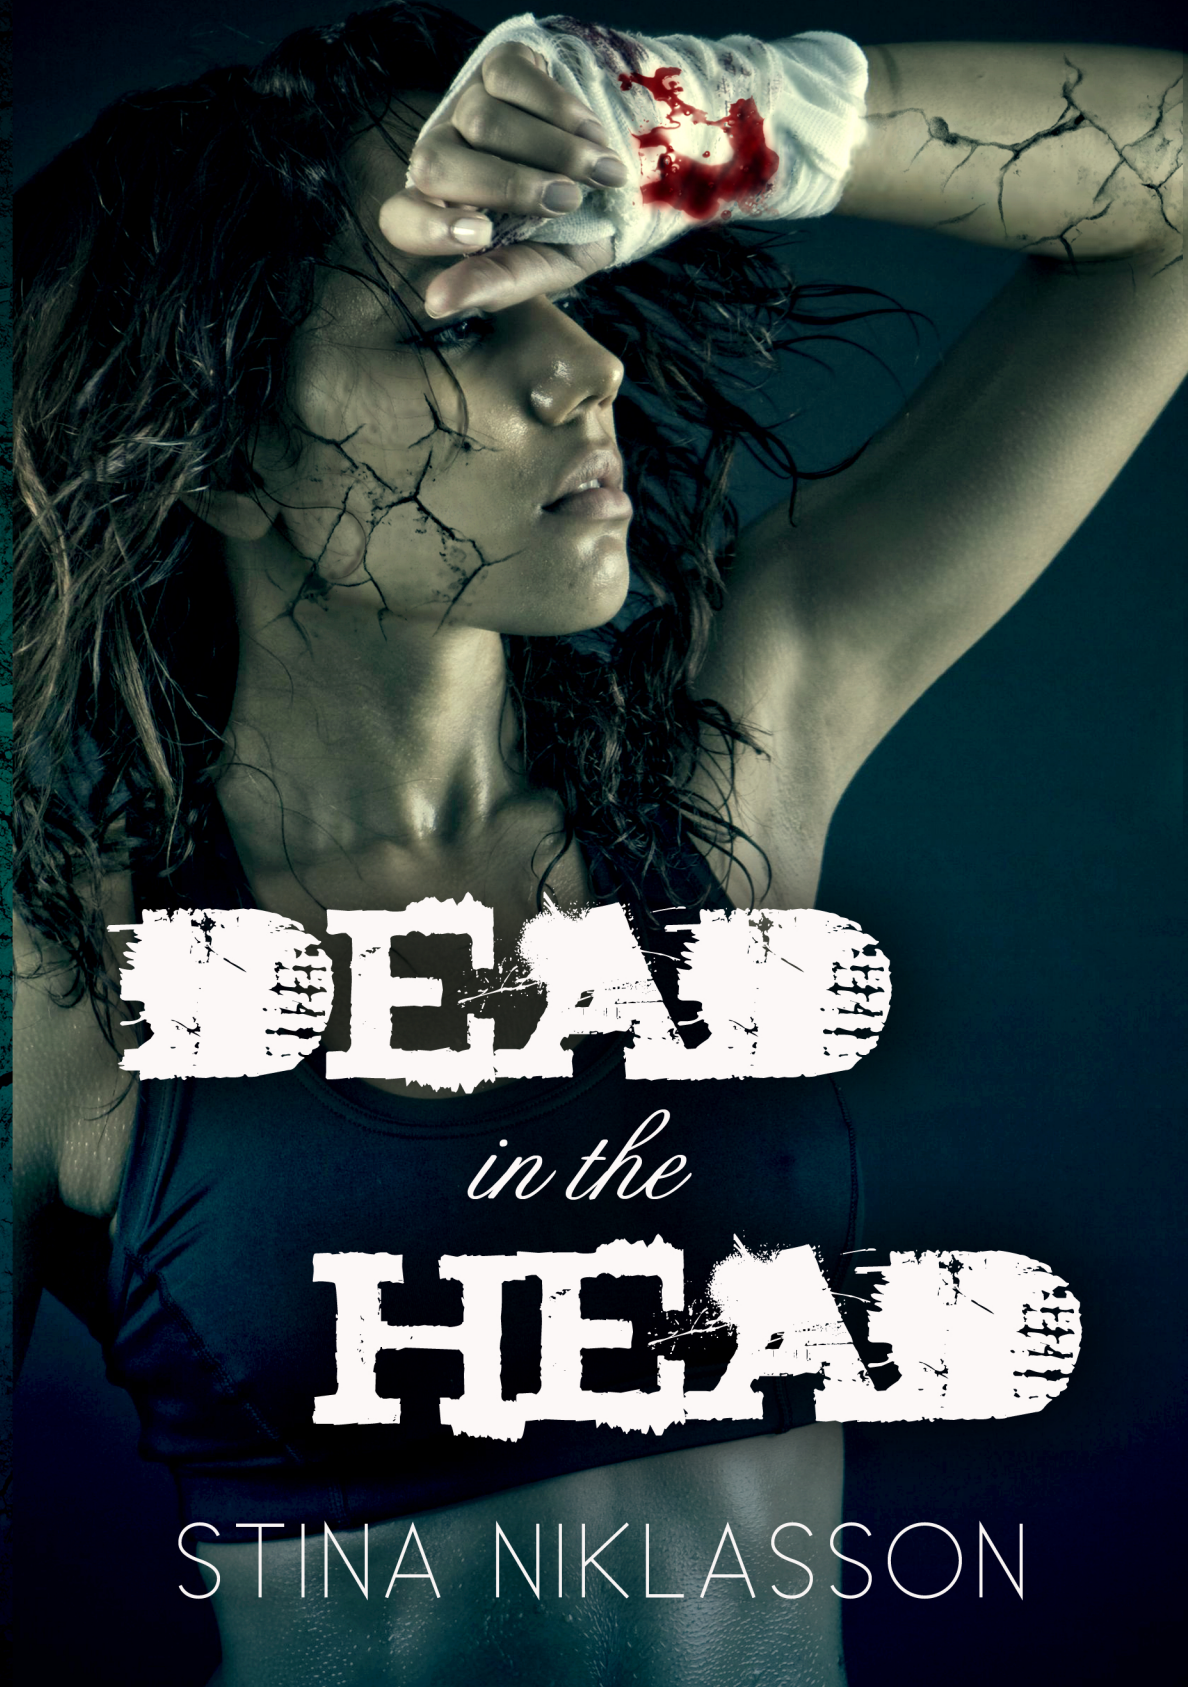

“Tony was the first molester in my life. He was a good family friend. I was eight years old the day he wanted to French kiss me...”

In this shocking inside look at child molestation and sexual abuse in America, STINA NIKLASSON vents her pent-up rage, frustration and anger towards the men who’ve done her wrong in imaginatively violent scenes of retribution.

Dead in my Head is a collection of therapy writings, through which the author hopes to purge her own demons while revealing the constant and ubiquitous dangers facing innocent children all the time.
